

EXAM QUESTION DOHS

The table shows the races that 72 primary school pupils entered on their Sports Day. They each entered one race.

| Race Entered | Number of Pupils | Degrees |
|---------------|------------------|---------------------------|
| Egg and Spoon | 14 | $14 \times 5 = 70^\circ$ |
| 3-legged | 23 | $23 \times 5 = 115^\circ$ |
| Sack | 19 | $19 \times 5 = 95^\circ$ |
| Obstacle | 16 | $16 \times 5 = 80^\circ$ |

Complete the table (2 marks)

360° in a circle
72 people in total

$$\frac{360}{72} = 5 \text{ degrees per item}$$

The table shows the places that 120 primary school pupils visited in the summer holidays. They each visited one place.

| Race Entered | Number of Pupils | Degrees |
|--------------|------------------|---------|
| Scotland | 38 | |
| France | 24 | |
| Spain | 43 | |
| America | 15 | |
